Liveboard trips with the MY Genesis 1

The "MY Genesis 1" is already a well-known and established cruiser in the Andaman Sea. Enjoy the comfort and service on board the "MY Genesis 1" during 3 days at Similand Island to adventure exploring the amazing underwater world of the Andaman Sea.

After your arrival on board, the Crew of "MY Genesis 1" will greet you with a welcome-cocktail on our party deck. This is also the place where all dive briefings will be held. In between dives and in the evening, the comfortable seating area makes a cozy place to chat with your dive buddies.

Sun worshippers will enjoy relaxing on either of the 2 sundecks. The upper sundeck is also the best place to see the majestic tropical sunsets, or to take in the pleasant breeze blowing across the ocean.

As your well-being is emphasized on board the "MY Genesis 1", you will be delighted by the delicious Thai cuisine cooked and served on the boat.

5 cabins are fitted with bunk beds and 2 cabins have single beds, all with adjustable air-con units. The panoramic windows provide you with a fantastic view of the sunrise.

There is plenty of space for your dive equipment on our 16 sqm dive deck. The dive platform is located at waterlevel, ensuring a comfortable entry into the water. The "MY Genesis 1" has a central compressor station situated under the deck, which has the advantage of almost-silent filling. Due to the filling capacity of the compressors you won't need to change your tank, as we will refill it after each dive.

The electrical recharge-station on board ensures that your flashlight or torch is always ready for the next dive. There is also the possibility to use the video and CD-player onboard.

The bathroom facilities meet European standards with 2 western-style toilets and freshwater showers.

Technical details:

28 x 12 ltr tanks, 50 ltr Oxygen, 3 Bauer compressors (220 l/min x 3), 2 x 35 KVA generators & 1 x 25 KVA generator (220 V AC; 24/12 V DC), 2 x 360 PS V-10 engines, 6000 ltr freshwater tank, GPS Sat. Nav., 3D-sidefinder, Radar, satellite phone, mobilephone, CB-radio, Zodiac (Dinghi), TV, Video and Stereo.

Remarks:

Due to unforeseen weather conditions do we reserve the right to change the tour schedule in order to achieve the best diving available at the time.

DIVING CRUISE

Andaman Sea

Liveboard trips with the "MV Marco Polo"

At a scale of 23m x 6m, the "MV Marco Polo" offers plenty of space for diving and relaxation. There are seven cabins, each designed with a individual interior. The three larger cabins all have air conditioning and two of them have both a double and single bed, with plenty of cupboard space for your personal belongings. The other four double cabins are also very spacious and have comfortable well-sized bunk beds. The cabins are specially designed to open to the outside so you can enjoy the sea breeze. Every cabin has a reading-light and 220V sockets to recharge your strobes or torches for the next day.

The huge 24 sqm dive deck offers ample space for all your dive equipment. The "MV Marco Polo" has a central compressor station situated under the deck, which has the advantage of almost silent filling. Due to the filling capacity of the compressors you won't need to change your tank as we will refill it after each dive. For your safety we have installed a video system, so the Captain can see the divers on the platform. There is also a complete medic first aid set on the boat, including a 50 litre oxygen cylinder.

Another important features:

In contrast to normal Asian standards, the "MV Marco Polo" has plenty of bathroom facilities. There are two shower cabins, two open showers and three additional western-style toilets, so nobody has to wait to take a shower after diving!

On the upper deck is a big salon, where you can watch your just-filmed videos, listen to your latest CD, or share your diving experience with the other divers. You can also climb up to the sundeck to soak up the sun. At night you can enjoy the fantastic night-sky and sleep until you are awoken by the first rays of sunlight!

The "MV Marco Polo" cruises among the beautiful islands of the Andaman Sea. We would be

happy to welcome you aboard to enjoy Thailand's best diving on one of the most beautiful

liveboards in the area!

Technical details: 40 x 12 litre tanks, 50 litre oxygen tank, two Bauer Mariner compressors, three generators 220/12V, GPS, Telephone, TV, Video and HiFi.

Remarks:

Due to unforeseen weather conditions do we reserve the right to change the tour schedule in order to achieve the best diving available at the time. For every trip a minimum of five customers is required.
